

Member Directory

Our nationwide directory allows you to search our members based on region, industry, chapter or organization. Trust us - you'll never run out of people to connect with!

Weekly Chapter Meetings

Our members are not mandated to be a part of a chapter; rather, they can choose to be a part of one if they want. Our chapters are great places to make deep, long lasting relationships with fellow members, train them on your services/ product and consistently refine your presentation skills.

Private Social Media Pages

Cities with multiple chapters have access to our Members Only Facebook pages, great for asking for referrals, chapter subs and promoting your business.

Industry Collaboratives

Members from across the country come together once a month to share industry trends, overcome challenges, create solutions and grow together.

Member Perks

As a CS member, you have access to pre-negotiated pricing on necessary, everyday business and personal expenses.

Events

Whether virtual or in-person, The Network is always finding ways for our members to connect, have a little fun and meet new and interesting professionals!

Center Sphere Academy

Whether it's growing your self-leadership or outlining your goals, The Academy has something for everyone. This cost-effective option is a great way for members to grow their relationships, their businesses and ultimately themselves.

Independent Membership

One of the biggest differences of Center Sphere is our independent membership. We realize that not every person or career allows for a weekly chapter meeting. That's why we offer an independent membership, allowing members total access to The Network without a weekly chapter meeting.
