

## Center Sphere: Independent Membership

As a Center Sphere member, you have the autonomy to create the membership that works for YOU! We understand not everyone wants the same things from their networking experience. That's why we've developed our Independent Membership! Now you can enjoy as many of the benefits of The Network as you want, all while not having to commit to a weekly chapter meeting. An Independent Membership is also a great place to connect with other Network members and take advantage of all Center Sphere has to offer while you are waiting to find your new home chapter.

With an Independent Membership, you can:

- Visit chapter meetings, both in-person and virtual
- Attend Network-wide and chapter hosted events
- Gain immediate access to the Center Sphere HUB
- Connect with other Network members to start building relationships
- Join your area's Private Facebook Page for Center Sphere Members
- Participate in one of our monthly Industry Collaboratives
- Create your professional growth path through Center Sphere Academy
- Take advantage of exclusive member savings with our Member Perks program
- Have opportunity to earn a free membership renewal
- Impact your local community through one of our Network Non-Profits
- Attend regular trainings to maximize your membership

The key to making your Center Sphere experience successful is building off the foundation of creating meaningful, genuine, REAL relationships. Our most successful Independent Members understand this and consistently plug into The Network in a variety of different ways that work for them.
